HOW FORAKER TAKES IT.

COLUMBUS (O.), Nov. 6.—The Demoratic State Committee is elaiming the election of Campbell by a plurality of 12,000 to 15,000, and the rest of the ticket by pluralities ranging from 4000 to 8000. These conclusions are reached from meager returns and mostly by estimates, but are believed to be reliable. The Republican committee has nothing upon which it can reliably dispute the figures. The committee, however, does not think the complete figures will be sufficiently favorable to save any part of its ticket. Both committee and chairman seem to be agreed that the Democrats will carry the Legislature.

Gov. Foraker was asked this evening if he had anything to say as to the causes which led to the result, and he said: "If greatly regret the result of course, but I have no complaints to make of anybody or anything. I have no time or disposition to discuss the causes. The newspapers will doubtless do that better than I can. I have sent Mr. Campbell the following telegram, and I sinesrely wish him a successful ad-

THE SUNDAY CRUSADE DID IT. "The German Republican Guard will be accused of enlisting again under the banner of the saloonists, but they did not do anything of the sort. They rebelled against the peculiar combination on the Sunday, question. No, it was not the saloonists who won the Democratic victory in Hamilton county, though they will claim it and use their power to the uttermost; but it was the Sunday crusade, which struck not only the saloons, but was extended to base-ball, ice cream, soda water, cigar standa, and seemed to be threatening the milk wagons."

A HOPEFUL VIEW.

A HOPEFUL VIEW.
COLUMBUS, Nov. 6.—The State Journal has returns from a large number of co ties, on which it says there is a possibility that nearly all, if not all, the Republican State ticket, with the exception of Foraker will be elected.

The Democrats Claim Everything— Republicans Still Hopeful. DES MOINES (Iowa), Nov. 6.—[By the Associated Press. The State Register says that it will require full particulars from every legislative district show that the next

DUBLUGUE. Nov. 6.—The Herald has returns from 67 counties in the State. These give Boles a plurality of 13,090. The remaining 32 counties in 1887 gave the Republicans a plurality of 11,298—On this basis all gains in the remaining 32 counties will simply add to his plurality. If the same rate of Democrate gains continue through the 32 counties, Boles will have a plurality in the State of 8000 to 10,000."

The Herald claims that it is now impossible to defeat him, and his plurality is only a question of gains in the remaining third of the State. It is not known whether the remainder of the ticket is elected or not, for Boles runs ahead. If his majority should reach more than 6000 it is almost certain to take the balance of the ticket with it.

WASHINGTON, Nov. 6.—First Assistant Postmaster-General Clarkson received a telegram this evening from his home in Iowa stating that the contest over the legislative ticket was very close and the result in doubt.

CHICAGO, Nov. 6.—A dispatch from Des

lative tickef was very close and the result in doubt.

CHICAGO, Nov. 6.—A dispatch from Des Moines, lowa, says: Complete returns from 95 counties, and the remaining four counties estimated the same as two years ago, show that Boies (Dem.) for Governor has 5995 plurality. The official returns will undoubtedly increase this about 7000. The entire State ticket—Lieutenant-Governor, Justice of the Supreme Court, Superintendent of Public Instruction and Railway Commissioner—is elected. The Republicans claim the Legislature by eight majority on joint ballot, but the Democrats do not concede more than three.

DES MOINES, Nov. 7, 1 a.m.—The State Register says: "Returns from all counties by full vote or estimated majorities indicate the election of Boies, Democratic candidate for Governor, by a small plurality, probably not over 3000. The vote is running so close with so many unexpected changes that almost the entire vote will have to be known before definite results can be ascertained. It is probable that the Republican State ticket, with the exception of Hutchison, is elected by a small margin."

Petersburg (Va.), Nov. 6. [By the Associated Press.] A scene bordering on riot took place in front of Mahone's house last evening about 11 o'clock. A mob of drunken men came down the street firing off rockets and roman candles, and shout lips. When they reached Mahone's residence, they halted and fired their rockets against his house, accompanying their acagainst his house, accompanying their ac-tion by derisive remarks, and hurrahing for McKinney, "Come out! come out! I dare him to show his face!" cried the ring-

dare him to show his face?" cried the ringleaders. Seizing a double-barreled gun,
loaded with buckshot, Mahone opened his
front door, and Butler Mahone and a number of his friends also went out. For a
time it seemed as if there would be bloodshed, as it was understood that revolvers
had been displayed.

Charles N. Romaine, dealer in fireworks,
was at the head of the crowd, and, shouting
to Mahone, he cried: "Shoot, you

—!" The crowd shouted again, derisively,
and poured a voiley of fireworks toward the
house. By this time it was discovered that
one of the party with the shreworks had
been shot, and the entire party left.

About midnight the Chief of Police appeared with warrants sworn out by Romaine, charging Mahone with assault with
intent to kill one Herbert Harrison.

Gen. Mahone's friends claim that he had
nothing to do with the shooting last night.
The testimony at the examination in the
police station showed that a party of young
men with a supply of fireworks located
themselves near Mahone's residence last
evening and fired off roman candles and
other pyrotechnics until the merriment was

REPORT OF THE COMMITTEE OF THE COMMITT

A regular session of the board of directors of the Public Library was held yesterday afternoon in the City Hall.

President G. A. Dobinson was in the chair, and Directors H. Jay Hanchette and J. Mill Davies were present.

The Committee on Purchasing Books reported that, atter having received and examined bids from dealers in this city, and also from the East, it found that by purchasing from eastern houses, a large saving could be made.

The committee also reported that the bid of Putnam & Co., being lower than other publishers, a large number of books had been ordered from that house, which were distributed in the various classes as evenly as possible, and which were expected to arrive in a short time.

On motion of Director Davies it was decided to conform to the request of the City Council to pay \$40 per month toward the expense of running the class of the class of the City Council to pay \$40 per month toward the expense of running the director Davies it was decided to conform to the request of the City Council to pay \$40 per month toward the expense of running the class of the City Council to pay \$40 per month toward the expense of running the class of the City Council to pay \$40 per month toward the expense of running the class of the City Council to pay \$40 per month toward the expense of running the class of the City Council to pay \$40 per month toward the expense of running the class of the

Clerk Robinson said that the salary
demands of Fowler, Dillon, Baker and
Hillhad been passed by the Finance
Chamittee without approval, for the
rason that there was no ordinance Committee without approval, for the reason that there was no ordinance froviding for the employment of more han 90 men, and the pay-rol for the sast month provided for 92 officers. The amount of the roll, however, was not in excess of the pay of 90 regulars, as some of the men were on leave and the specials had taken their details.

Commissioner Collins moved that the four specials be dismissed. This motion was carried by a unanimous vote of the members.

Commissioner Collins then offered a motion that Messrs. Dillon and Hill be placed on the regular force, which was also unanimously carried.

On motion of Commissioner Dexter, Chief Giass was requested to make out a demand for the four special officers and present the same at the next meeting of the commission.

Leave of absence was granted to J. J. Hawley for five tays, H. C. Vignes for two days and C. C. Connolly for five tays.

tions to the mon. He thought it not right to allow the men to absent themselves from the force and receive pay while on vacation, and suggested that men be placed on the beats of those absent on leave and that the substitutes receive the absentee's salary while on duty.

Mayor Hazard explained that a rule had been adopted by which each officer in the department was allowed 12 days' vacation with pay each year, and if off duty a greater length of time a substitute was placed on the vacant bea's.

The petitions for saloon licenses from W. H. Roper on Second street, between Main and Spring streets, Ed Reed at No. 7 New High street and D. Mazzafero at No. 101 Upper Main street, were referred to the Chief for investigation as to the character of the

street, were referred to the Chief for investigation as to the character of the places and the feeling of the residents in the neighborhood as to the opening of the establishments.

A second application from Antonio Charvoz for a license for a saloon at No. 700 South Olive street was read. The report of Detective Wallin, who investigated the former application, and upon which report the license was

and upon which report the license was denied, was also read. It appearing to the board that the applicant had obtained the required number of signers to his petition, the license was granted. The demands of Kingsley & Barnes, for printing to the amount of \$5; of C. Laux, for medicines furnished the receiving hospital for \$15.35, and from P. L. Budinger, for boarding the department horses for \$32, were read and approved.

approved.

The bill of P. L. Buninger for the month of September, which was first presented some time ago and cut by the City Council from \$36 to \$32, was brought up again. The other demand being still in the hands of the Finance Committee of the Council the mat-

being still in the hands of the Finance Committee of the Council, the matter was laid over for an investigation.

A demand from D. M. Morrison for professional services in attending the department horses to the amount of \$6 was approved.

A demand from James F. Burns for \$6.45, salary as Chief of Police from July 18th to July 24th, was presented. This demand had been before the commission some time ago, and payment had then been refused.

Mayor Hazard said the demand had again been presented at his request, as

Mayor Hazaru sain the demand had again been presented at his request, as he thought the city was liable for the amount, and should it be taken into court the ex-Chief would likely obtain a judgment. His Honor suggested that the matter be referred to the City Attorney for an onlinen as to the list.

that the matter be referred to the City Attorney for an opinion as to the liability of the city for the amount.

Commissioner Lewis thought that Mr. Burns should receive salary for the time he held the position, and as that did not expireuntil he turned over the badge of office on July 24th, he moved that the demand be approved. Mayor Hazard renewed his suggestion in regard to an opinion from the City Attorney, and it was finally decided to postpone action until such an opinion was given.

Applicants for appointments on the force were received from H. A. Rinkenbach and J. T. Neighbors. After reading they were ordered filed.

THE Jacksonville Times-Union publishes the following very ingenious de-scription of the difference between a od and bad negro:

good and bad negro:

Hundreds of red shirts blended handsomely with the black faces above them in
Florida during the campaign of 1888. Whole
platoons of them marched over, in company

IT is reported that we are to have one or more beet-sugar factories in Southern California, under the patron age of the American Sugar Company of San Francisco. This company is competitor of Claus Spreckels, and represents the Sugar Trust, but then, if the Sugar Trust is willing to help Southern California, while Claus Spreckels won't, why, we shall be human enough to modify, in a measare, our opinion of the Trust, so far at least as to sell it all the beets we can

In his Examiner interview, the other day, Mr. Waterman (who plunge somewhat after the style of a wild, untamed toro in a glassware store) under took to say, in an exceedingly decided and ex-cathedra fashion, that neither Markham nor Morrow are in the field for the Republican gubernatorial nomination. Without dwelling upon the indelicacy of the remark, coming as it did from a rival aspirant for the honor, we have to say that Col. hence this independence of action when local questions are paramountan independence which, in some cases, oses the Republicans a Senator.

In Ohio, Mr. Foraker's shabby treatment of Sepator Sherman in the National Convention, together with his antagonism of the Germans, has cost im his election. In Iowa, prohibition defeated the Republican ticket. In other States, local questions might also be found which would fully account for these reverses, without necessitating any reference to Los Angeles

THE LIBRARY AND ITS LESSONS

The Los Angeles Public Library now contains about 8000 volumes, inclusive of public documents. The increase in number of books drawn for home use last month was 900, the total number of books passed over the counter in October being 5521, which shows that the live the counter in the live the l pearance of those in a metropolitan library. The statistics of books and magazines called for in a public library furnish an interesting test of the char cter of the literary tastes of the population. Thus, in the list of mage zines drawn from the Los Angeles L brary for home use during the month -rather to our surprise-Har per's fapin the lead, with 39 calls; the Century is which is generally credited with being the most popular magazine occupying a bad second place, with 25 closely followed by Scribner, 23; St. Nicholas 22, and the North American Review 22. These magazines are far in the lead, the others mentioned rang

ing from 12 down to 1. Coming to books, we find-as might be expected-fiction far, far ahead, he ing credited with 1428 applications, against a combined total of all other oranches of 630. The greatest demand has been for the following authors, in the order named: Dumas, Roe, King,

down. Public libraries belong under the same classification of useful institutions as public schools. They take up the work of education where the schools leave off, and in this country, where young people enter early into the serious business of wage-earning, the schools frequently leave off sooner than they should. Massachusetts gives a Republican majority of only 5000 to 6000, while New York goes Democratic by 20,000 to 25,000.

To ascertain the reason for these Republican reverses, it is by no means necessary to go so far as our esteemed atternoon contemporary, which sees in these defeats a rebuke administered by the American people to Mr. Harrison, for not appointing Messrs. Obsorne, Seamans et als. to lucrative positions under the Federal Government. This is, to say the least, a remarkable position to be taken by a Republican pointing the Federal Government. This is, to say the least, a remarkable position to be taken by a Republican pointing Nestronial Platform, and which errainly, on more than several occasions, censured Mr. Cleveland, in pungent paragraphs, for not carrying out his civil service promises. But then, of course, it makes considerable difference whose jade is galled.

The Republican defeats may be attributed to local causes. Intelligent voters—which designation includes most Republicans—are constantly coming nearer to the conviction that national politics has little to do with city, county, or even State elections; hence this independence of action, when local questions are paramount—when local ques

THE CHRYSANTHEMUM FAIR STILL DRAWING CROWDS.

The Mexican Booth in Pine Feather Last Night, with a Chihuahu Indian for an Attraction-Interesting Programme of Exercises-Sales of Plants.

But a few days more and the Chrys anthemum Fair now running at the Simpson Tabernacle will come to a exhibition should not allow the few opportunities which they have to go by without seeing at once, at least, the most successful and interesting exhibition that has been held in this city

for some time.

It is conceded by all experts who have attended that the chrysantheums on exhibition are the finest that have ever been grown in this State, and that is saying considerable when so many persons are in the cultivation and perfection of this species of plants. Besides the flowers, there is an exhibition of curios in the gallery that cannot be excelled. Especially is this the case with the articles shown in the Mexican booth, one of the largest, if not the largest, in the building. This booth is in charge of a number of ladles, but is under the direct supervision of Mrs. Antenio F. Coronel. The majority of the articles in the booth are from the splendid collection belong to Don and Mrs. Coronel, and among them are articles which cannot be duplicated. A portion of the collection of Miss Yda Addis is also shown in this interesting booth. Miss Addis spent some time in traveling throughout Mexico, during which she obtained some exceedingly rare articles. Mrs. Mary F. Brown, Dr. M. D. Lummis, Miss Teed and H. Fuller also have many rare things entered. One cannot fail to be interested in this magnificent display, and an entire evening can be spent with profit in streying the exhibit. Mrs. Coronel and Miss Addis, as well as the other ladies in the booth, are well informed as to the uses and value of the articles under their charge, and are at all times ready to explain them to visitors. Annual Report of Chief Signal Officer Greely.

He Says His Department Will Go to ment Gives it Better Support.

By Telegraph to The Times.

Washington, Nov. 6.—[By the Associated Press.] When Secretary Tracy returned to his deak in the Navy Department today he found a telegram from the Union Iron Works Company of San Francisco, builders of the Charleston, in response to his telegram of Saturday last. In this mesage, the iron works company says they be

builders of the Charleston, in response to his telegram of Saturday last. In this message the iron works company says they believe they could show 7400 horse-power with a reduced propelier on another trial of the vessel, but in order to avoid delay and trouble they will withdraw their demand for a new trial and leave the matter entirely in the hands of the Secretary.

Upon this Secretary Tracy ordered the acceptance of the Charleston, the question of penalty to be considered at the final settlement with the confractors.

The board appointed by Secretary Tracy to examine the plans upon which the cruiser Texas is being constructed at the Norfolk Navy-yard has completed the work, and will submit a report in a few days. The opinion of officials about the department is that the report will confirm the accuracy of the calculations made in the Bureau of Construction and Ropair, which show that, if constructed according to the present design, the Texas will be 16 inches further under water than the plans contemplate. This would carry a great portion of her armor under water, rendering it a useless burden.

The steamer Kanger, at Mare Island, has

tion of her armor under water, rendering it a useless burden.

The steamer Ranger, at Mare Island, has been ordered by Secretary Tracy to proceed to San Bartholomo Bay, Lower California, and resume the survey on that coast where it was discontinued last season. From that point she will make progress to the southward, as rapidly as is consistent with thorough work.

The Signal Officer Says His Depart

ment Needs Better Support.
WASHINGTON, Nov. 6.—[By the Associated Press.] Gen. Greely, Chief Signal Officer, in his annual report, says: "In the performance of the strict military duties which devolve upon him, the Chief Signal Officer is seriously embarrassed by the utter lack of facilities for using or caring for field telegraph trains or other signal equipments under his charge, for the prac-tical training and drilling of officers and enlisted men of the signal corps, and lastly to a minor extent by the need of liberal ap-propriations. Under such conditions the officers and men of this service are grad-nally but surely retrograding as regards their military duties, and at the end of the fiscal year the condition of signal instruc-tion in the army is at the lowest ebb it has ever known."

ever known."

He recommends, therefore, either that instructions in the art of military signaling be abandoned or ampie material and moral support given the Chief so that he may raise it to a high standard of efficiency.

Speaking of weather forceasts, Gen. Greely calls attention to the fact that under the present conditions the forceast officer can devote barely half a minute to all predictions for more particular. State district.

Washington delivered to President Harrison today a letter prepared by a distinguished committee in behalf of the association, setting forth the great accumulation of business before the United States Supreme Court, and making a strong statement of the urrent necessity for the enactment of some measure of relief.

Secretary Hinckley told the President that the committee requested that he call the attention of Congress to the subject in his forthcoming annual message. The President answered that he would do so, Washington delivered to President Harr

CHICAGO, Nov. 6.—Among the delegates already here to attend the National Convention of the W.C.T.U., which assembles on Friday, is Mrs. J. Ellen Foster of Iowa. She was asked tonight what would be the result if the indorsement of the third party's politics is again given in this convention, and the protest of the minority ignored. Mrs. Foster would not state positively, but thought it safe to say that the minority would withdraw from the W.C.T. U. in a body in such event.

Horses That Could Jump. CHICAGO, Nov. 6.—At the American horse show tonight the world's record for high jumping was broken by one and a quarter inches, waking a total jump of 6 feet 10% inches, by Ontario, owned by S. S. Howland of MountMorris, N. Y.. and by Roseberry, owned by Morehouse & Pepper of Toronto. Each horse won \$500, a special purse of \$1000 having been offered for the highest jump.

year, and the condition of the park funds.

The City Gas Company has evidently been stirred up by the action of the board and the Lowe Gas Company, and a representative was present last night, who said the City company would furnish gas at \$2.50 per 1000 cubic feet, and not ask the citizens to take stock. No action was taken by the board, though it was reported that the proposition of the Lowe Gas Company had met with general favor among the citizens. Much had been promised, and the committee was instructed to get more subscriptions.

The question of school buildings was discussed, there being a decided antagonism between those who want a new four-room house on Belmont Heights and those who want four rooms added to the Temple-street school.

MR. NEATH'S CASE.

A Paralytic Accused of Attempted Murder. A case which has been quite mysteri-

ous and about which there has been considerable curiosity aroused, will be tried before Police Judge Stanton to-

The case in question is that of the people against Samuel Neath; who was arrested on Monday evening last at his residence on Manhattan avenue, near Main street. The charge upon near Main street. The charge upon which he was arrested was that of disturbing the peace, preferred by his wife. No information could be obtained as to what offense he had committed, as when interviewed, his family would say nothing. He was arraigned in the Police Court Tuesday, and the case was continued. After the continuation, upon advice given by the District Attorney, a second complaint was sworn to by Mrs. Neath, which charged her husband with an assault to murder, but in what way it could not be ascertained. Bail was set at \$5000, and the defendant was returned to the City Prison.

There was a rumor to the effect that Mr. Neath, who has been a sufferer for some years from paralysis, was in the habit of chasing his wife and family about the house, beating them with a cane, and making all sorts of threats. On Monday morning, it is said, he beat his wife and daughter, and finally threw a chair at one of them. This is supposed to be the offense for which he is to be tried.

Mr. Neath was interviewed at the City Jail last evening. He is a man slightly above the medium height, wears a beard, and it and his hair are slightly tinged with gray.

He would not talk much about his difficulty, but said that he had on many occasions, when suffering tom

city fathers should put one in every such franchise when given.

A resolution by J. Mills Dayles for the paving of Temple street te Bunker Hill avenue, and the rest of the street in good condition, was accurately aimed toward the City Council and fired as a sort of reminder.

The choicest plum of the subjects of interest before the board was kept until the last, and a number of members left before the most interesting part of the First-street grading discussion occurred. Mr. Wells moved that First street should be cut through.

Lawyer O. O. Trantum, who had been sitting very quietly all the evening, said he had a suggestion to make. Parties were trying to buy out the Shaperd property at \$37,000 as a necessary first step to the cutting through, and the adoption of the resolution would only disturb and delay matters. The board had better keep its hands off in the board had better keep its hands off with the considerable interest. Nationalism Has the Floor.

special answer to Mr. Welcome's question was almost unnecessary, but one was given him as an act of courtesy. He was informed a couple of weeks ago that a special answer had been prepared; and, as a matter of fact, it was published on the same morning as Mr. Welcome's letter.

There is but one real difference between the theories of Mr. Welcome and those of the Nationalists: He believes in a partial remedy—and they believe in a complete one. Respectfully,

This is the time of the year for carriage rides over the country. From Santa Barbara to San Diego the traveler will find a most interesting region, with good hotels and roads.

WHAT can be done by a display of good taste and personal attention is well shown by a glance at the property of Col. Markham, James Cambell and George Stimpson. The land about oms like a garden and is an attractive park.

THE suggestions given by the Hor-ticultural Society and the plans formulated by them are being followed out with a most satisfactory result. What were weed-choked lanes are now attractive streets, and lots covered with brush and unplowed look as if they had owners. HOW TWO COURAGEOUS LA DIES HAVE SUCCEEDED.

The Work Accomplished by The -The Only Fruit-preserving Es-tablishment in Pasadena-Details of the Fortunate Venture.

The press of this section, the Board of Trade and almost every active business man have, in the last two years, lost no opportunity of urging the dwellers in this city to do something in the way of placing our fruits upon the market. Editorials, leaders, speeches at dinners, and harangues at the Board of Trade, have urged people to be up THE slang Americanism, "took a and doing. The tons of fruit going to umble," evidently came from our local waste have been pointed at, and every appeal made to get some man or mer to go into the fruit-preserving business; but the man did not take the hint, and it has remained for two ladies to step to the front, single-handed, literally, and prove to the people of Pasadena that they have re-sources, and that it will pay to develop

sources, and that it will pay to develop them.

These ladies, Miss Amos and Miss Hinman, were school teachers. Women of the highest refinement and culture, yet they have accomplished what the male population of Pasadena thought could not be done. What available money they had was unfortunately invested here, and they found themselves in Pasadena without much means of support. Did they sit down and wait for people to come out with money? Did they go up to Seattle to follow up the boom? By no means. They began in a very womanly way to show low up the boom? By no means. They began in a very womanly way to show their faith in the land of their adoption. They saw the tons of fruit going to waste, and believed that they could preserve some of it at a profit by following out their "home-made" rule, which was to use the very best material and give a fair and just amount. They talked the matter over with their friends and the latter, among them the Rev. Mr. Merwin, Mr. Raab, F. S. Smith, Mrs. Margaret Collier, D. M. Graham and Miss Jennie Collier offered to aid them, and as a result of their endeavors \$150 was raised, and became the capital stock of the suit of their endeavors 5150 was raised, and became the capital stock of the Woman's Fruit-preserving Union of South Pasadena. This enabled them to buy some glasses and hire a two-room cottage on Glendon way, South Pasadena, near the railroad; and here

with a few spoons, a kettle, a gasoline with a few spoons, a kettle, a gasoline stove, the movement was inaugurated. They went to the fruit groves of the neighborhood and bought their stock, and without help commenced to make preserves and jams from the fruit that happened to be in season. In many cases they even picked the fruit themselves, preserved, boxed and shipped it; even the carpentering was done by these gentlewomen. Unable to have the

EN PASANDO.

E. G. Ellenwood Leaves a History Behtnd Him. It has been currently reported on the streets for some days that E. G. Ellen-wood, alias Kiralfy, has left the town, forgetting to square up several of his accounts. Ellenwood came here from Calamazoo, Mich., over a year ago, and during his short stay has been conducting a stationery and news stand. Ellenwood was of a very extravagant disposition, and nothing but the best could suit his taste. He hired a suite of rooms at the Carlton, and with his facile manner, he gained admittance in the Pickwick Club, and it was not in the Pickwick Club, and it was not long before the suspicion was aroused that the smooth individual was trying to introduce gambling among several of its members. An early meeting of the club was called, and Ellenwood and several of his associates were requested to resign, the sooner the better.

with the announcement that he would leave later than he had expected, his departure from town, leaving his crediters behind him, will be an easy thing.

On Monday evening Constable Slater went to Los Angeles in search of Ellenwood, where he was found at one of the leading hotels. Without much persuasion the Constable secured from him \$75, which was due for the rent of his place. Yesterday morning Slater again went to Los Angeles to collect several little bills which had been left behind him.

THE 7 TH OF NOVEMBER

GEN. ANDREW JACKSON was engaged in settling the affairs of the conquered Creeks in April, 1814, when his attention was directed toward the nostilities of the Spaniards in Florida. Nine British vessels anchored in the harbor of Pensacola in the following August, and Col. Nichols endeavored to infiame the Indians to fresh hostilities. Orders had been transmitted to Jackson to attack Pensacola, but, as they were six months on their way, that General did not wait for their arrival, but at once set about raising troops, and by November had a force of 4000 men well in hand. He set out from his headquarters at Mobile on November 6th, encamped two miles from Pensacola. On the 7th Jackson sent a messenver to the Governor to say that the expedition was not one of hostility, but to protect the neutrality of Florida against violation by the British. He demanded the surrender of the forts, pending the possession by the Governor of an adequate defensive force. The demand was refused, and the troops marched into the town, avolding the fire of the fleets and the force. The attack was opposed only by a two-gun battery, which was quickly captured. The forts were then surrendered except Fort Barancas, six miles distant, which was blown up by the British, and the ships sailed away. Jackson's vigorous measures put an end to further hostilities, and the Indians made haste to submit.

miles from Belmont on November 7th,
and the gunboats at once opened fire
on Columbus. Pillow was dispatched
by Gen. Polk to reinforce Belmont,
and in the sharp engagement which
ensued the Federals were victorious.
The heavy Confederate artillery in
Columbus, however, played upon the
position with such destructive effect
as to make it untenable, and the Federals, after burning the Confederate
camp, withdrew from the place. Polk
then opened with his heaviest guns,
sent more troops under Gen. Cheatham, and finally came over himself.
The Confederate force then numbered
5000, and the whole body fell upon the
Federals, but the latter succeeded in
making their escape. The Federal
loss in the engagement was 500, and
that of the Confederates 600 in killed,

MERITORIOUS PICTURES. Sale by the Misses Gamble, Artists

The Misses Gamble have a fine collection of eir paintings at 114 West First street on ex hibition and for sale. Among them is a beau tiful sunset in the Antelope Valley-in the foreground, tall Yucca palms, with bunches of juniper; in the background, the illuminated warm glow of sunset. It is Nature, quiet, warm, tender and brooding.

"Point Firm n," another sunset view, in which the water is glowing with warm lights and the mist and clouds are bright with ame thystine tints. It is Nature as poets love her. "Automadon," in black-and-white, is full of strength and action. "The Revenge of the beauty, and "The Storks" is a charming trop ical scene.
